Biometric Data Defined

As used in this policy, biometric data includes "biometric identifiers" and "biometric information". "Biometric identifier" means a retina or iris scan, fingerprint, voiceprint, or scan of hand or face geometry. As the term is used in this policy, the selfie photograph you upload to the software for use in the biometric algorithm is considered a "biometric identifier." "Biometric information" means any information, regardless of how it is captured, converted, stored, or shared, based on an individual's biometric identifier used to identify an individual.

Disclosure and Authorization Policy

To the extent that DC Credit Union, its vendors, and/or the licensor of the DC Credit Union's consumer verification software collect, capture, or otherwise obtain biometric data relating to a consumer, DC Credit Union must first:

Inform each consumer that DC Credit Union, its vendors, and/or the licensor of the DC Credit Union's consumer verification software are collecting, capturing, or otherwise obtaining the consumer's biometric data, and that the DC Credit Union is providing such biometric data to its vendors and the licensor of the DC Credit Union's consumer verification software;
